PROPERTY WRECKED BY EXPLOSIVES

MOST DASTARDLY OUTRAGE COMMITTED FRIDAY NIGHT

Twenty-Eighth Street Station of the Inter-Borough and the Manhattan Brooklyn Rapid Transit Stations Blown Up—Subway Service Was Paralyzed—Water Pipes Were Broken and Station Was Flooded—One Person Killed and a Number Were Wounded—Basement of Philadelphia Church Also Wrecked.

At least one person was killed and more than a dozen injured in a series of explosions in two of New York's main subway arteries Friday night.

Ten persons, nine men and one woman, who were injured in the explosion at 28th street and Fourth avenue, were taken to Bellevue hospital. One man was in a serious condition with a fracture of the skull. The head of a screw was imbedded in his skull, doctors said.

One of the men less seriously injured was beaten by a policeman when he resisted arrest after the officer caught him robbing a store, the windows of which had been blown out by the blast.

During the confusion a policeman shot and wounded a man believed to have been trying to rob passengers on an I. R. T. train.

The train had pulled into the station shortly after the explosion. A patrolman entered to quiet them. He saw the man snatch a woman's pocketbook and run. He called him to stop. When the man continued to run the patrolman shot him.

An unidentified man standing on the platform of the Brooklyn Manhattan Transit subway at Twenty-eighth street was blown to the tracks by the force of the blast.

Badly injured, he was picked up and taken to the New York hospital.

The B. M. T. Twenty-eighth street station was a mass of wreckage. The force of the blast, attributed to a bomb, broke the water pipes in the lavatory. The platform was flooded. The railings of the stairways were blown from their concrete bases. Turnstiles and change booths were shattered. The brick and cement littered the scene.

One man was severely injured in an explosion at the Twenty-eighth street station of the Fourth avenue line of the Interborough Rapid Transit Co. He was an employee of the subway company, but had not been identified when he was taken to Bellevue hospital.

As the cars entered the area of dense gas fumes, the trains slowed down and finally came to a stop while men and women, at first only uneasy, finally insisted on being carried on to an exit.

At least seven persons were injured at the Broadway and Twenty-eighth street station, according to firemen. The explosion was said by police to have been caused by a bomb planted in the lavatory on the south side of the station.

An unidentified man was taken from the wreckage unconscious and was taken to New York hospital in a serious condition.

The ticket agent's booth on the northbound side was ripped to pieces tile walls of the station were raked down and pillars and sections of the ceilings were twisted and wrecked.

Subway service was paralyzed and Broadway surface cars were halted while police reserves were called to assist in the rescue work and handle the thousands of persons who gathered at the scene.

The breaking of windows in the

district added to the confusion when they caused burglar alarms to be sounded throughout the area. This brought a rush of private detectives from protective agencies to the scene.

A terrific explosion late Friday night wrecked the basement of Emanuel Presbyterian church at Forty-second street and Girard avenue, Philadelphia, Pennsylvania, shattered all the windows in the edifice and threw the neighborhood into a turmoil of excitement.

Police expressed the belief that a bomb had been hurled thru a basement window of the church.

Police found a can of nitroglycerin with a long wire attached in the basement of the church. They expressed the belief that those who threw the bomb had been frightened away before they could set off the nitroglycerin.

A heavy guard of police were thrown about the church with orders to remain there thru the night.

A large hole was torn in the side wall of the church near the pavement and the explosion shook the buildings within a radius of several blocks.

Rev. Edward S. Bowman, pastor of the church, is also a chaplain of the Eastern State penitentiary there. Mrs. Bowman said her husband had no enemies and had never discussed radical activities from his pulpit. She also said there was no dissension in the church.

HOME COMING AT GREENVILLE.

The following parties from here attended the annual homecoming at the Brethren Old Folks' and Children's Homes at Greenville, Ohio, Friday; Rev. and Mrs. A. G. Crosswhite, their daughter, Mrs. Ina Reber, of Cleveland, who is visiting them; Mrs. Ren Mumaw, Charles Mumaw and son, Junior. It was attended by hundreds and a free dinner to everybody as well as a splendid program in which the local pastor participated.

COON CHASE

The second annual Coon chase of the Franklin County Coon Hunters association will be held Saturday, August 13, starting at ten o'clock a. m., at Mount Air, two and one-half miles north of Worthington on the Olentangy river road.

Prizes will be awarded to the winner of each heat and \$50 in cash to the grand champion. The chase is open to all hunters. Lunch served.

CHURCH NOTICE.

HAPPENINGS IN OUR STATE

**Taken Direct From Wires
By Correspondents of the
United States Press
Association.**

Marion — Funeral arrangements were being made today for Mrs. Gertrude Carr, 22, mother of three children who died Friday night of burns in city hospital. Mrs. Carr's clothes caught fire when a can of gasoline and coal oil she was mixing exploded. The three small children, unable to give aid stood by and watched the flames consume their mother.

Cincinnati — When Leslie Thompson, patrolman, found John Brown, Negro, he was wearing five coats and four pairs of pants. Thompson testified in court here. Brown did not answer Thompson's questions satisfactorily so he was arrested on a charge of loitering. All the clothing he wore was new.

Cincinnati — After killing his wife with a table knife yesterday in a rooming house in Indianapolis, Harry Henry, 32, formerly of Cincinnati stabbed himself to death. Henry was angered, Indianapolis police said, because Mrs. Henry had refused to return to Cincinnati on the way to Frankfort, Kentucky, with him or to leave behind an unpaid bill.

Columbus — No comment was forthcoming early today from Governor Donahay's office on the reported refusal of the Ohio Coal Operators association to be a party to reopening of the Miami conference at Toledo, August 15. At the governor's suggestion in an effort to settle the wage dispute now tying up Ohio coal fields.

Columbus — Sylvester Ballentine, 5 of 536 Edwards street, was struck Thursday by a truck driven by Fred Hopkins, 202 South Sandusky street at Washington avenue and Grove street. The boy was taken to Grant hospital by Hopkins.

Delaware — Herbert L. Eliot, 52, former member of the state industrial commission, died at his home Friday afternoon, following an illness of more than four years. He was active in Ohio politics.

New Fish Found

A new kind of fish has been discovered off the coast of Rio de Janeiro. It is known as the ink stand fish because of the bone on the back which looks like a pen. When the pen is pulled up, the blood is black, and good enough to write. The bone pen handles as well as the best steel pen.

NEWS ABOUT COURT HOUSE

**General Happenings Taken
From the Records of the
Various County
Offices**

Thompson Will Probated.
The will of the late Elizabeth Thompson has been probated. After giving articles of jewelry to different relatives she gives the residue to Mary Freshour who was named and qualified as executor. The will is dated November 20, 1925, and was witnessed by Leora Hinton and Wm. McKenzie. The estate is estimated to be worth \$2,836 of which \$436 is personal. Carson Dresbach, H. B. Shannon and Crist Margraff were named as appraisers.

Drunks at Millport.
The sheriff's department visited Bloomfield's seaport, Millport, Friday at noon and gathered in three drunks on the coast line. All of them were wet with mountain dew, commonly known as "Moonshine." They were Thomas Brogan, William McElligot and Pat Fitzland. In the probate court they were each taxed \$5 and costs which they paid and returned to their work on the Chesapeake and Hocking railroad.

Marriage Licenses
Frank Burgett, 25, truck driver and Eva Mae McBride, 21, both of Orient. Richard Eugene Bloomfield, 22, steel worker, Portsmouth, and Edna Lorean Henry, 21, Circleville. Herman L. Arledge, 27, and Viola M. Minor, 21, both of Walnut township.

CANADIAN TRIP
Bryce Briggs and Jack Ryan have returned from a two weeks' motor trip to Quebec and other Canadian towns. They report having had a fine trip and had the pleasure of seeing the celebrations and greeting the prince of Wales and Stanley Baudwin, on their arrival at the Hotel Frontenac, Quebec.

CLEANING PLANT SOLD.
Don T. Cast has disposed of his dry cleaning establishment to Keener & Strandberg of Chillicothe. The new firm will operate the plant as a branch.

Nature's Regulation
Although there are from twenty to sixty more male babies than female babies in every 1,000 babies born, there are more women than men in the civilized countries of the world, according to an answered question in Liberty. This is because more male babies die in infancy, and men are more liable than women to death by accident.

GUARDING PRESIDENT
The president of the United States at Rapid City, South Dakota, was surrounded by a guard as heavy as that which protected the chief executive during the war, following reports of radical violence protesting against the electrocution of Sacco and Vanzetti. When the report was received from New York that subways had been bombed, presumably by sympathizers of the condemned Anarchists squads of sentries were enlarged to completely surround the president's summer home. Vigilance of secret service men was increased.

Princess Marie Jose of Belgium and the Italian duke of Aosta, who are said to be engaged.

**BUS DRIVER IS
AWARDED CLAIM**
Claude L. Summers, a bus driver for the Buckeye Stages company, was awarded a claim by the state industrial commission, Thursday for injuries which arose from wearing a pair of puttees which were too small for him.

The claim application shows that the company by which he was employed furnished him a uniform and puttees which he was required to wear at all times when on duty.

The puttees rubbed the heel which became infected and he was under medical treatment for some time. Summers drove one of the buses between Columbus and Mt. Vernon, and his medical bill was ordered paid from the state insurance fund.

Logical Youngster
In the kindergarten during a natural history lesson the teacher said, "So, you see, one of the differences between us and animals is that we can talk." "Spiders can talk," said a little fellow of three. "No, dear, spiders are very clever, but the little creatures can't talk." "Well, then, how did he say, 'Will you come into my parlor?'" — Boston Transcript.

MT. VERNON, O. SELECTED FOR NEXT REUNION

**Of the Fourth Ohio Regiment,
Prominent Men Greeted
the Veterans.**

The 29th annual reunion of the 4th Regiment Ohio Volunteer Infantry, Spanish-American war veterans which held their session in this city Friday at Zwicker's grove, was well attended 225 soldiers signed the roster. They were accompanied by their wives and children and the crowd was estimated at between four and five hundred people.

Mayor George M. Fitzpatrick made the address of welcome and responses were made by General John C. Speaks, of Columbus, member of congress from the Twelfth district, and Supreme Court Judge E. S. Matthias of Van Wert.

Company M., of this city, the members of which served in the Spanish-American war in 1898, has dwindled down to 32 survivors, fifteen of whom reside in this city.

The day for holding the reunion was ideal at the park as old "Sol" was just hot enough to make an outdoor gathering comfortable.

There is something different between the comradeship of a soldier, something indefinable, that goes to make the comradeship a little nearer, finer, more human, a little more neighborly and brotherly than that of any other organization. They shared their food, bed and all their heartaches with each other. Fighting side by side, sharing each other hardships thru the day and night in all kinds of weather brings the human souls nearer and closely knits the chains of friendship that last thru life.

The old friendships were renewed Friday at the festive board out on the ground under the canopy of blue, on fairer land than that on which they fought on 29 years ago.

Maybe the "chuck" was a little better, and surrounded by their wives and children made them happier, but their thoughts wandered back to the island in the Greater Antilles beyond the Caribbean Sea, when in the days under the hot sun they followed their commander; "Teddy" Roosevelt, up San Juan hill and won the battle that turned "Old Spain" out of the new and sent her back to the old world, shorn of all her great possessions this side of the pond. The Spanish-American war made history and freed a nation.

The entertainment committee served roast beef, coffee, cheese sandwiches and ice cream gratis. Hard-tack, canned beef and beans were off the list, but the boys did not miss this provender. It's only a memory now.

The next place for holding the reunion will be at Mt. Vernon.

The following officers were elected for the ensuing year: President, Fred Wiley, of Lancaster; vice president, Dr. B. R. Bales, Circleville; secretary treasurer, George Zwerner, Columbus; chaplain, C. E. Wolf, Marion.

POOR FISH.
The sheriff's department has disposed of a quantity of poor moonshine whisky. They poured about five gallons of the "joy" into the sewer this week.

MISS ROTH IMPROVING.
Miss Elizabeth, daughter of Mr. and Mrs. G. E. Roth, a counselor at Ogantz, White Mountain camp, Lisbon, New Hampshire, is slowly improving from a serious ear infection.

Patent Office Term
Ordinarily the term "basic patent" is employed in the sense of "foundation patent"—that is to say, a patent for a pioneer invention—one involving an altogether new principle, a new departure, one for accomplishing something never accomplished before.

**Bavarians Are Tempting Dainties
Dearly Loved By Small Children**

Bavarians are among the most attractive desserts we have. They are simply delicate fruit gelatine, with whipped cream folded in, just as the mixture begins to set.

These charming, light desserts, however, have high food value on account of the cream and fruits which they contain, and are excellent carriers of vitamins and mineral salts. They are greatly relished in the hot weather by children, and by adults as well.

A fact that may not be known to all housewives is that evaporated milk will whip either alone or in combination with whipping cream. In either case, a light, fluffy whip is obtained, ideally adapted for use with bavarians.

"Heavenly Hash" is a variation of bavarians. It is made by folding in chopped fruit just as the mixture begins to harden.

They are excellent desserts to serve at the end of a hearty meal, and their presence on the table adds color and atmosphere.

Pineapple Bavarian

- 1 1/2 tbsp. gelatin
- 1/4 cup cold water
- 1/4 cup sugar
- 2 1/4 cups drained, grated pineapple
- 1/4 cup lemon juice
- 1/4 tsp. salt
- 1/2 cup evaporated milk
- 1/2 cup whipping cream

Soak gelatin in cold water five minutes. Set over a pan of hot water to dissolve gelatin, add sugar, salt, pineapple and lemon juice. Set in a pan of cold water, stirring occasionally until mixture thickens. Fold in the whipped evaporated milk and cream. Chill. Yield: 5 servings.

Banana Bavarian

- 1 1/2 tbsp. gelatin
- 1/4 cup cold water
- 1/4 cup sugar
- 1/2 cup evaporated milk
- 1 cup boiling water
- 1 tsp. butter
- 1/4 tsp. salt
- 1/2 cup orange juice
- 1/2 cup evaporated milk
- 1/2 cup whipping cream
- 3 bananas

Soak gelatin in cold water for five minutes, add gelatin with the sugar and salt to the hot diluted milk, and stir until dissolved. Set dish in pan of ice water, add orange juice, butter and bananas mashed to a pulp, stir occasionally. In the meantime have combined the evaporated milk and cream. Chill and whip. Fold into the gelatin mixture just as it begins

to thicken. Pour into molds and chill for at least two hours.

Orange Bavarian

- 1 1/2 tbsp. gelatin
- 1/4 cup cold water
- 1/4 cup sugar
- 1 1/4 cups orange juice
- 1/2 cup lemon juice
- 1/4 tsp. salt
- 1/2 cup evaporated milk
- 1/2 cup whipping cream

Soak gelatin in cold water, add sugar and orange juice and heat over hot water until gelatin dissolves. Remove from heat, add

salt and lemon juice. Cool, stirring occasionally until mixture begins to thicken. Combine evaporated milk and cream, chill and whip. Fold into gelatin mixture just as it begins to set. Yield: 5 servings.

Raspberry Bavarian

- 2 tbsp. gelatin
- 1/2 cup cold water
- 1/2 cup boiling water
- 1 pt. crushed red raspberries
- 1 cup evaporated milk
- 1/2 cup whipping cream
- 1/4 cup sugar
- 1/2 tsp. lemon juice

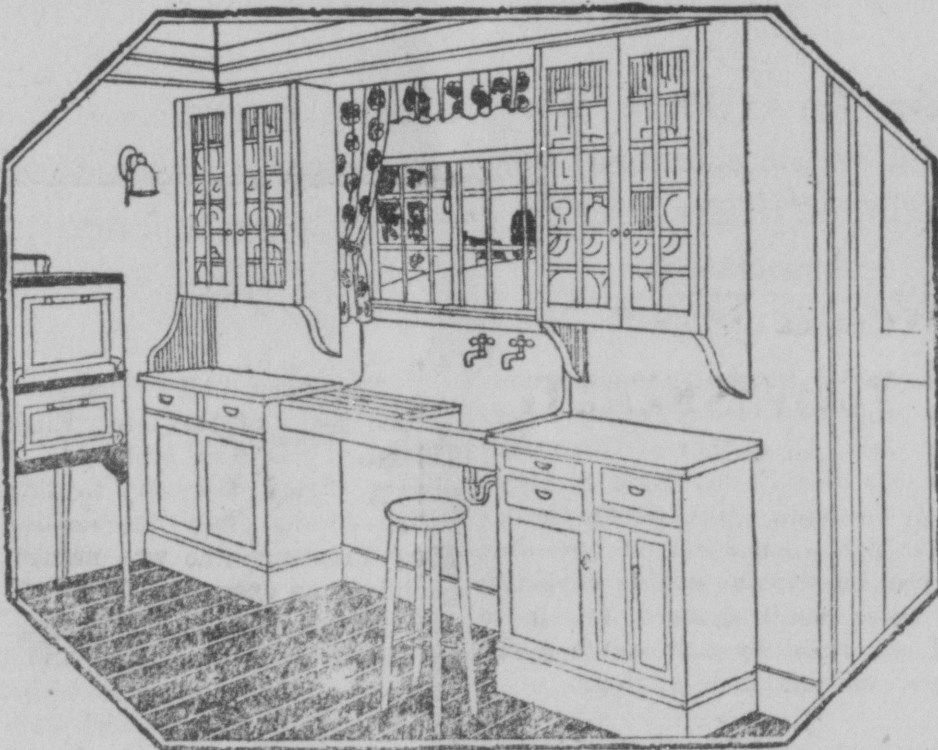

Soak gelatin in cold water and dissolve in boiling water. Cool and add crushed fruit mixed with sugar and lemon juice. As soon as the mixture starts to set fold in the whipped cream mixture and pour into molds to set. Yield: 10 servings.

Chocolate Bavarian

- 1/4 cup boiling water
- 1/4 cup sugar
- 1/2 cup heavy cream
- 1/2 cup evaporated milk
- 1 tsp. vanilla
- 1/4 cup gelatin in cold water
- 1/2 cup scalded milk
- 1/4 cup cold water
- 1/4 squares chocolate

Add the scalded evaporated milk. Stir until gelatin is dissolved. Melt the chocolate over hot water, add the sugar slowly and then the boiling water a little at a time. Add slowly to the gelatin mixture while both are hot. Cool. When the mixture begins to set fold in the cream and vanilla. Pour into molds. Yield: 5 servings.

Well Arranged For The Worker

KITCHEN work, today, is robbed of much of its old-time drudgery by all sorts of mechanical devices and modern improvements. But perhaps the greatest aid is to be found in convenient arrangement.

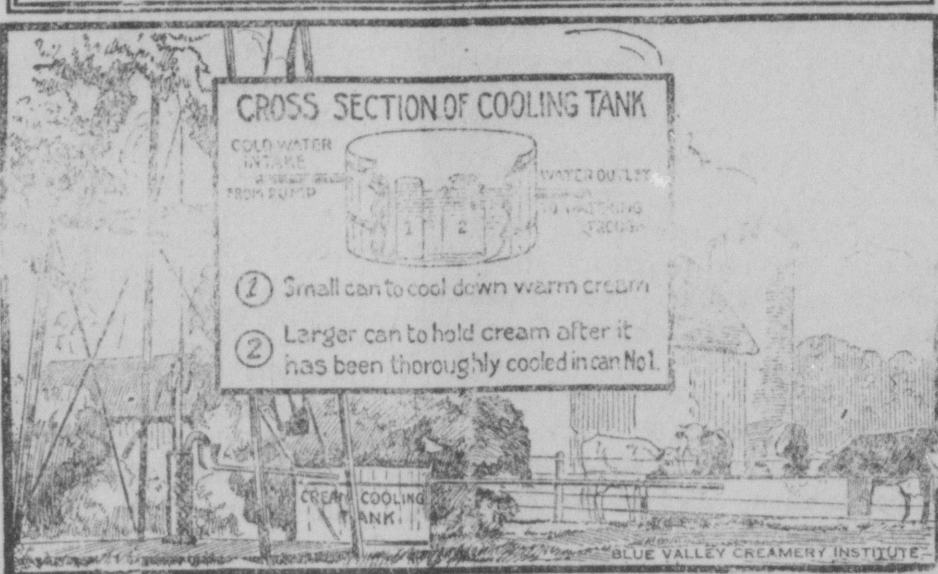

In the first place, the modern housewife does not have to walk "miles" from stove to sink and from pantry to ice-box, as her grandmother had to do. Kitchens, today, are small, compact and well-equipped. One of the greatest step-savers is the placing of sink and drain-board between pantry and china-closet. This is an ideal arrangement for the worker, especially if there is a window directly above the sink. After drying the dishes, it is but a step in either direction to place them where they belong.

The two cupboards should be

painted on the outside to match the woodwork, which is usually painted white or cream, in contrast with walls painted light yellow, pale green, a delicate blue, or a dainty shade of peach. Sometimes, however, the wood-trim is painted blue, green or light gray, as a frame for buff, yellow or orange colored walls. It is effective to repeat the wall color on the inside of the cupboards and their drawers, thus adding another cheery bit of brightness to the kitchen. Well-painted surfaces are sanitary and easy to clean.

Convenient built-ins are a well-established feature of nearly all California and Florida kitchens, since so many people live in bungalows in those places and the warm climate makes it advisable to minimize work in every possible way.

Talking About Noise

Noise-merely-relative paragraph in McPherson Republican: "If you think that a hen makes a lot of noise after she lays an egg, just come in contact with a man after he has laid a carpet."—or beaten a rug.—Capper's Weekly.

Inventor of Steamboat

It is hard to say who invented the steamboat. Both James Rumsey and John Fitch invented steam-propelled boats in 1786. Rumsey demonstrated his steamship on the Potomac the same year that Fitch demonstrated his on the Delaware. Robert Fulton's more successful steamboat came later.

Flag Never Dipped

Raymond Poincare, war President of France, said a few years ago: "The Star Spangled Banner is the only flag in the wide world which does not dip before the head of a state, king or President." That's a little detail, but it is significant. The flag of the United States is dipped in courtesy to another nation, but never to an individual.—Gas Logic.

OHIO EXPOSITION
**Is Set For Brilliant Opening
August 6.**

Cleveland, O., Aug. 5.—Dou-
bling its bid for national and in-
ternational attention as the cen-
ter of the world's richest indus-
trial area, Cleveland is bending
her efforts to land a plane from
Paris to Cleveland in the first
non-stop westward crossing of
the Atlantic, between the dates
of the gigantic five-city block in-
dustrial exposition planned for
23 days, Aug. 6 to 28.

The prize is \$30,000, guaran-
teed by the Cleveland Chamber
of Commerce. Arrangements now
are being taken up officially with
the international Aeronautique
Federation in Paris.

One of Cleveland's strongest
bids for industrial expansion is in
the field of aviation. This ac-
tivity is a part of a general three-
year program of the Industrial
Development Committee of the
Chamber of Commerce. The
Paris-Cleveland hop is proposed,
therefore, for the double purpose
of advancing Cleveland as an
aviation center and of focusing
world attention on the Industrial
Exposition.

The stage is virtually set for
the opening of the big exposition
at noon Saturday, Aug. 6. Ex-
ecutive staffs of the exposition
company have been moved to
their operating headquarters in
Cleveland's mammoth public
hall! exhibits are being placed in
the halls and in the central plaza;
the radiant Tower of Jewels is
ablaze and its loud-speaker in
full cry; in short, the spectacle is
ready for the hundreds of thou-
sands of visitors the advance
ticket sale contest has assured.

Aeronautics will have a large
part in the varied and attractive
exhibits the exposition will offer.
On the plaza will be numerous
models of mail, passenger,
freight-carrying and war planes
of various types. A feature of
the aero-section will be a com-
plete working model of Cleve-
land's air field, the finest in the
United States.

But these are only a few of the
countless exhibits and entertain-
ments at the exposition which are
certain to attract the eyes of vis-
itors and to hold their attention
every minute they are on the
great exposition grounds.

**"JANUARY THAW"
PROVES REALTY**

Many of the popular traditions
about the weather have been
shown to be fallacies by the
scientific investigation of the
records, but it seems that there
is some substantiation for the
popular belief about the regular-
ity of the "January thaw," which
is a belief that is prevalent
throughout the Eastern part of
the country. According to an
article of Roscoe Nunn of the
Weather Bureau:

"The immediate cause of each
occurrence of the spell is readily
seen from an examination of the
weather maps. It is almost need-
less to say that they are caused
by low-pressure areas moving
eastward or northeastward, tra-
versing the Lake region and the
St. Lawrence valley, or the Ohio
valley or the Atlantic States and
inducing southerly winds in the
Eastern States.

"A file of weather maps for
the years 1901 to 1927 was ex-
amined to discover the types of
maps that produced the mild
spells. In the 19 cases investi-
gated it was found that lows mov-
ing eastward over the Great
Lakes and the St. Lawrence val-
ley produced 10 of the spells,
lows coming from the far south-
west and passing northeastward
over the Ohio valley or the At-
lantic States caused four; simul-
taneous movement of Alberta
and southwestern lows caused
three, and lows that formed, or
developed, over the Middle West

Royalty in "Trade"
Traveling about Germany with
models for a Parisian fashion house is
the fate of Countess Olga Loris-Meli-
kov, granddaughter of Czar Alexander
II of Russia, and also of the Russian
poet, Alexander Pushkin. Had the for-
tunes of war been different she might
today be crown princess of the king-
dom of Flanders, the creation of
which was planned by the Germans in
1916. Countess Melikov, nee Meren-
berg, goes to Germany from time to
time to show the models of a house
owned and run by Russian emigre
aristocrats living in Paris. She makes
regular stops in Berlin, Frankfurt and
Wiesbaden, besides paying occasional
visits to other centers, and everywhere
manages to dispose of orders running
into high figures.

TIRED?

OF course you're tired of all the
extra cleaning that is necessary
during the summer months, when
wide-opened windows invite all the
outdoor dust. Of course you begrudge
more than ever—on these beautiful
summer days—the extra time that
this cleaning takes.

Let The Greater Hoover assume that
task for you. With its amazing clean-
ing principle, "Positive Agitation,"
it can do a better cleaning job than
you have ever dreamed possible—re-
move 131% more dirt in ordinary
cleaning time than even the best pre-
vious Hoover!

Surely, you won't try to go through
the summer without this great help.
Particularly when you realize how
easily you can have The Greater

Distance's Lure

I have heard it said of a great painting, "Don't go too close to it." In order to get the best out of a picture, view it in the proper light, and from a distance. If you get too close a look, you will realize the rough way in which it is made. . . . I prefer (now) to also view women from a distance: never closer than four or five feet.—E. W. Howe's Monthly.

The Four Things That Matter.

There are four qualities we look for in a motor oil:

1. It must give perfect lubrication.
2. It must leave the engine in clean condition.
3. It must be economical to use.
4. It must be free from impurities that damage the engine.

On these four counts we have chosen Sinclair Opaline Motor Oils and we recommend them to our customers.

COAL PRICE REDUCED TO NOTHING FLAT

Club is Now Being Formed at the Stevenson Furniture Store on West Main.

That is will be possible, for a few short weeks, between July 30 and August 20, to secure, without cost a ton of high grade coal, was the announcement made today by Mr. H. G. Stevenson.

The plan, by which thousands of people in all parts of the nation will receive a free ton of coal is appropriately known as The Free Coal club plan. Purchasers of an Estate Heatrola between the above mentioned dates are eligible to receive the free coal. The plan works, briefly, as follows: A \$2 enrollment fee, which is applied to the purchase price of Estate Heatrola, and dues of \$2 a week, also applied to the purchase price, are paid. This continues until fall, when the free coal and the Heatrola are delivered, and the balance of the cost is due. The price of the Heatrola to Free Coal club members and to those who purchase their Heatrolas before or after the drive, is the same, so that the coal, is, in fact, absolutely free.

The Free Coal club is a national organization, founded in 1922 by The Estate Stove company, of Hamilton, Ohio, makers of the famous Estate Heatrola which has revolutionized small home heating practice since it was invented and first offered to the public in 1921. Every year, thousands of people everywhere have purchased Heatrolas and received a free ton of coal during the period of the drive for members. This year, more thousands will join, including, if interest in the plan is an accurate guide, many local residents.

The Estate Heatrola is well known in Circleville. It has banished the old-fashioned, unhealthy stove heating method in many homes and provided healthful Heatrola furnace comfort. In so doing, Estate Heatrola has met a long felt need. Tired of stove heat with its dry, blistering heat, home makers welcomed the Heatrola because it made possible the circulation of warm, moist air thru every room of the house, upstairs and down. Physicians are unanimous in their contention that the proper circulation and humidification of air in the home is of paramount importance to the health of the occupants.

Built on the principle of a warm air furnace—to circulate heat thru every room, and to provide the proper humidity for most healthful conditions, Heatrola has met with a wide acceptance. Satisfied Heatrola users in all parts of the nation now number many thousands.

Then, too, the Heatrola has wrought remarkable changes in the very appearance of the homes which it is serving. It is built to resemble closely, a handsome mahogany phonograph. Its vitreous enamel, fused to the metal under a temperature of 1500 degrees Fahrenheit, is not only as beautiful as the natural wood, but smooth as glass—and everlasting.

The Intensi-Fire Air Duct and the Hot Blast attachment, exclusive features of the Heatrola, have made this wonderful appliance so efficient that Heatrola users report a saving in fuel, on an average of 45 per cent. The Intensi-Fire Air duct, built into the Heatrola at the hottest point, heats the air intensely and sends it rushing into the house, while the Hot Blast attachment draws air into the fuel bed, burns the volatile gases, cokes the coal and reduces it to a fine ash. The Heatrola burns no more fuel than a single old-fashioned heating stove, yet it heats the entire home.

The Stevenson store is the exclusive local distributor of the Heatrola and the only local organization eligible to enroll members in the Free Coal club. Mr. Stevenson has announced that he will be pleased to give any further information desired to interested parties. A telephone or personal call at the store, West Main street, will obtain the desired information. Mr. Stevenson urges those who are interested to communicate with him as soon as possible, since the Free Coal offer positively closes on August 20.

Cedar in Orchards

The Department of Agriculture says that the presence of a cedar tree in an orchard may or may not be detrimental, depending upon the variety of the apples. The disease known as cedar rust requires both a cedar tree and an apple tree in order to complete the life cycle. Some varieties of apples are immune, while others are highly resistant.

AMUSEMENTS

World war aces who think they know the last word in hazardous flying, may be able to learn some new aerial tricks with the showing of "Rookies" Metro-Galdwyn-Mayer's nest farce comedy coming to the Met theater Monday.

The story, an original by Byron Morgan, is laid against a background of citizens' military training camp life and is directed by Sam Wood, who made a name for himself by directing many of the most successful Wallace Reid productions.

Wood, who is an authority on film thrills, is said to have injected airplane and balloon stunts which are almost blood congealing to the spectators.

During the filming of the air sequences the director called upon the fliers to "do their darndest," and was rewarded by a series of thrills that almost stopped the battery of cameras and forced the cameramen to take refuge in flight.

Planes swooped from the sky directly at the camera lenses, banking when less than forty feet away, while traveling at almost eighty miles an hour. That they did not mow down the cameras is all the more remarkable when the fact is considered that the planes had a wing spread of more than thirty feet.

The plane shots were filmed at altitudes varying from twenty-five feet to more than a mile and the balloon thrills were taken at heights which sometimes carried cameras, director and cast far above the clouds.

The picture was produced with the cooperation of the government and many officers detailed to the training camps appeared in the production and acted as technical advisors. The story features Karl Dane, Marceline Day, George K. Arthur and Tom O'Brien. The supporting cast includes Frank Currier, Lincoln Steadman, Gene Stone, E. H. Calvert and the well known film actress, Louise Lorraine.

Verdict Leaves Sting

"Not proven" is a verdict allowed in criminal cases in Scotland when the evidence is insufficient for a conviction, but strong enough to give probability to the charge. The prisoner cannot be tried again for the offense, but a moral stigma, however, remains on him for life.

COMPANY M, O. V. I.

**Snapped At Camp, Chickamauga
Where They Were Drilled
For Spanish American
War Service.**

In the display window at the Photograph Gallery of F. A. Martin there is a group picture of Company M, Ohio Volunteer Infantry, that was snapped at Camp Chickamauga, Georgia, where with the other companies of the Fourth Ohio Regiment, they were drilled for service in the Philippines.

It is interesting to pick the boys of today from the photograph as many of them have changed materially; Fred. Donnelly, James and Joseph Baughman, J. Mouser "Red" Crayne, Charles Titus, John L. Baker, John Bailey, "Lovey" Montgomery, of the Commissary department are distinguishable within the group.

**Great Variety in
Coats for Summer**

**Made Along Rather Straight
Lines; Rely Upon Stitch-
ing and Fabrics.**

The summer coat, like the rest of the warm weather wardrobe, shows great variety in line, detail, fabric and color. There is a coat for every occasion, even when it is not purchased along with its matching frock.

The dress coats for summer find silk and crepe chiffons the most successful means of establishing chic. They are made along rather straight lines and rely upon stitching, cut and contrasted fabrics for their variety. Colors are wide in their choice. The dark coat that was so perfect an accompaniment for the figured silk dress of the late spring may still serve a smart purpose, but is more or less overshadowed by the grays and beiges that are so much in vogue. All white is particularly effective and is worn with both the all-white costume or with the colored silks that will make the summer season gay. Black silk and chiffon coats are to be seen in striking contrast to the dresses, too.

For sports the mode is even more liberal in lending variety. Cloth, silk, linen and cotton fabrics are seen in all sorts of interesting weaves and patterns. Colors are distinctive and their combinations are apt to be very striking.

The lines on the sports coat are particularly straight and simple. Unusual pockets, belts, collars and buttons appear to advantage in creating smart effects.

On all-summer coats fur is a matter of choice. Flat pelts or the long-haired fox skins are used, but share

Charming Coat of Brown Plaid of Light Weight Fabric.

their favor with coats which rely upon their own fabric and lines for distinction.

Mary Astor, the motion picture actress, in selecting a chic coat for outdoors, has chosen a brown plaid of light weight fabric fashioned along very simple lines and trimmed with red fox fur. Miss Astor wears many attractive costumes in the film, "The Sunset Derby."

Lace Used on Garments;**Liked on Summer Hats**

Lace and lots of it. This is the dictum from the fashion centers and it applies to garments from toe to topknot. Lace has even come in again for hats. The large, soft, fine straw hats of the wide-brimmed type now have the brims underlined with ecru lace which extends to the edge and about half an inch beyond it. Occasionally such hats are trimmed with a single strand of osprey plumes, posed flat around the crown.

Aviation Hats Popular**With Young Parisiennes**

The young Parisiennes are wearing the little felt helmets still more since the transatlantic feat. These are most attractive in all the prettiest pastel shades and intricately cut. Some have wings on either side, others are the regulation aviation cut—one might have one ear-tab—another an ear-tab on either side, and so many bear the stamp of patriotism in the form of an airplane ornament, which is smartest in marcasite.

Dark-Colored Hose are**Worn by London Women**

British women, tiring of mud bespattered flesh-colored hosiery, have once again chosen to wear darker silk stockings, even including black, writes a London correspondent. Fashionable shops are showing dark grays and browns as well as black. Many of the best-dressed London actresses are inclining more and more to black and other dark gowns favored by Paris dressmakers, and these require darker footwear.

Why Mince Words?

This is the open season when automobile manufacturers go gunning for buyers. Read the extravagant claims . . the boasts . . the adjectives and superlatives. You are entitled to the facts. Every high priced, largest-type car has lost sales this year. Although several of the smaller, low-priced cars show gains, the industry as a whole shows a loss as this is written. Yet in contrast Auburn in the first 5½ months of this year built as many cars as all of last year. And in 1926 Auburn doubled its production over 1925. New type merchandise, of greater

value for less money did it. Cars that perform better, ride and drive easier and endure longer did it. The Straight Eight type of car is the undisputed leader today. No Straight Eight is more successful than Auburn. Facts prove it, in the hands of owners as well as in official contests conducted by the American Automobile Association. The reasons for Auburn's extraordinary success are all built into the car itself. We claim it is the greatest value on the market . . . bar none . . . and will let the car itself prove it with you at the wheel.

Groundhog Superstition

According to superstition, the groundhog, or woodchuck, leaves his winter home on Candlemas day and if he can see his shadow, he returns to his hole and sleeps some more, because he knows that winter is still unbroken. But if it is cloudy, and he cannot see his shadow, he knows that the worst of winter is over.

Just when the groundhog idea started is not known, but the superstition that the weather on Candlemas day is an indication of the weather for the rest of the winter is too ancient a superstition to be discarded. It has prevailed in Europe for centuries. The Germans have a saying that "The shepherd would rather see a wolf in his stable on Candlemas day than the sun."

The "Right" Oil May Be Wrong

The oil you always use may not be the right oil for your car today. And the right oil for today may not be correct a year from today. As your car grows older—your engine clearances increase. And you must change to heavier bodied oil.

We prescribe Sinclair Opaline Motor Oils in different grades to meet the changing condition of your engine. Consult the Sinclair Recommendation Index—see you are using the best lubricant for your car as it is today.

To the Honorable Benson W. Hough, Judge of the District Court of the United States for the Southern District of Ohio.

Floyd Shaw, of Circleville, in the County of Pickaway and State of Ohio, in said District, respectfully represents:

That on the 15th day of December last past, he was duly adjudged bankrupt under the Acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said Acts and of the orders of the court touching his bankruptcy.

Wherefore He Prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said Bankrupt Acts, except such debts as are excepted by law from such discharge. Dated this 25th day of April, A. D. 1927.

FLOYD SHAW, Bankrupt.

Southern District of Ohio, County of Pickaway, ss.

Floyd Shaw being duly sworn deposes and says, that he is the petitioner named in the foregoing petition, that he has read the same and knows the contents thereof; that the same is true to the knowledge of deponent, except as to those matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

FLOYD SHAW.

Sworn to before me this 25th day of April, 1927.

M. C. SEYFERT, Notary Public.

District of Ohio,

County of Pickaway, ss.

I, Floyd Shaw, being duly sworn, depose and say that I have not been discharged as a bankrupt, in voluntary proceedings, within six years of the date hereof.

FLOYD SHAW.

Subscribed and sworn to before me this 25th day of April, 1927.

M. C. SEYFERT, Notary Public.

ORDER OF NOTICE THEREON

Southern District of Ohio, ss: On this 3d day of June, A. D., 1927 on reading the foregoing petition, it is

Ordered by the Court, that a hearing be had upon the same on the 14th day of October, A. D., 1927, before said court, at Columbus in said District, at 10 o'clock in the forenoon; and that notice thereof be published in the Union-Herald a newspaper printed in said District, and that all known creditors and other persons in interest may appear at the same time and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

And it is Further Ordered by the Court, that the Clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable

B. W. HOUGH,

TRUSTEE'S SALE

OF REAL ESTATE

AND PERSONAL

PROPERTY.

In pursuance of the authority given to the undersigned Trustee, under the Last Will and Testament of Frank P. Berger, deceased, I will offer at public auction at the front door of the Court House in the City of Circleville, Ohio, on

MONDAY, AUGUST 22, 1927,

at one o'clock P. M., Eastern Time, the following described real estate and personal property:

FIRST TRACT:—

Being a tract of land consisting of about 212 acres of land situated in the Townships of Circleville and Washington, in Pickaway County, Ohio, and being about three miles distant from the City of Circleville on the Circleville and East Ringgold Pike, which pike runs thru said farm and in the farm consist of a large 8-room brick house and a large bank barn and other buildings, such as granary and corn cribs; all buildings are in good condition. This farm is well fenced and tiled and in a high state of cultivation. There is on this farm about 20 acres of fine virgin timber, consisting of oak and walnut trees; and also a good young orchard.

SECOND TRACT:—

Being a tract of land of about 168 acres of land situated in Walnut Township, Pickaway County, Ohio, and being on the Walnut Creek Pike about four miles from the City of Circleville, Ohio; this farm is also in a high state of cultivation, being well fenced and tiled. This farm has also a good frame house of eight rooms, large barn nearly new, and other outbuildings.

THIRD TRACT:—

Being the undivided one-half of Lot No. 1796 and five feet off of the south side of Lot No. 1795 in L. N. Abernethy's North End Addition to said City of Circleville, Ohio. This property was the residence of the late Frank P. Berger, deceased, and is located on North Court street in said City. This property consists of a fine 8-room modern dwelling, being built by Mrs. L. N. Abernethy and is in splendid condition and has all modern conveniences. There is also on this lot a well and garage.

FOURTH TRACT:—

Being Lots 1798 and 1799 in L. N. Abernethy's North End Addition to said City of Circleville, Ohio, and 35 acres of land adjoining said two lots; these lots are west of residence property above described and said lots front on Highland avenue.

Also, I will offer 5 shares of The First National Bank Stock of Circleville, Ohio.

10 shares of The American Mortgage Company, of Cincinnati, Ohio.

And one share of The Pickaway Grain Company stock of Circleville, Ohio.

Possession of the farm will be given to the purchaser for the purpose of sowing the wheat and full possession on March 1, 1928.

NOTED PASTOR WILL PREACH AT LANCASTER

Dr. C. A. Tinley of Philadelphia, will deliver three sermons at the Lancaster camp grounds at 10:30, 2:30 and 7:30 tomorrow. This great minister has the distinction of having the only church in the world, where on the account of crowds, his own members are admitted to the service by tickets only and then to only one sermon on any Sunday.

Everyone will want to hear at least one of the sermons.

The music will be furnished by a vested choir of 35 voices from the Glenwood M. E. church, Columbus.

Many cities signify their intention of hearing this program.

SCHOOL WILL BE NEXT WEEK AT LANCASTER

Fine Programs at the Camp Ground Have Been Arranged by Missions.

The School of Foreign Missions, of the Ohio conference, Methodist Episcopal church, will be held at Lancaster camp grounds next week, starting Tuesday, August 10.

The various districts will have charge of the afternoon programs, Lancaster district conducting the Wednesday program and a large delegation is expected from this city and other surrounding towns on that day.

The district having the largest number of members present on the day they have charge of the program is counted the banner one.

Saturday, August 13 is Anniversary day and Dr. Oscar M. Buck, of New York City, who was associated with E. Stanley Jones in India will give an address. Miss Clementina Butler, daughter of Dr. and Mrs. William Butler, who were the first missionaries sent to India by the M. E. church, will speak on "Mexico." She will also speak at other sessions during the week.

Missionaries who will assist with the program will include Helen Albecht, Japan; Fern Sinkey, Ursula Tyler and Thirza Stahl, China; Elizabeth Hoge, India and Frances Blackburn, South American. Mrs. R. L. Thomas of Cincinnati, will speak Wednesday at 4:30 p. m., on "The New Day."

FINISH FIGHT AGAINST RAISE OF PHONE RATES

To be Made Against Citizen's Telephone by Subscribers of This County.

The public meeting called by the city council, the Farm bureau and the chamber of commerce to arrange to hire an expert to go over the books of the Citizens Telephone company to see if this corporation is entitled to extra rates for telephone service, was fairly attended Friday evening and representatives of the three bodies attended the call. Frank A. Marion a member of the council presided as chairman.

Among those present were Beecher W. Waltermire of Columbus. He was a former member of the Utilities commission. He explained how public utility corporations secure their increases. His explanation was interesting and he added that the commission is fair to both sides in a rate controversy, but facts must be given them and no subterfuge used. When you go before the commission you had better be prepared or your case is lost at the onset. It's like appearing before a court, you must have everything ready to attack.

Mr. Beman Thomas, of the engineering firm of Beman Thomas and company, of Columbus, a firm which makes appraisals of utility companies told that it would take 45 days to make a complete survey of the telephone property. He explained the difference between a complete survey and a spot examination. The latter is cheaper, but not as thoro. The former would cost approximately \$3,000 and the latter \$2,500.

A spot examination is merely a checking of the company's inventory filed with the commission, while the latter is their own estimate based on a survey made by the company's expert engineers. He said his company is ready to do either but he would recommend a complete survey, as it was more valuable in the end.

After a discussion headed by Frank A. Lynch, president of the chamber of commerce and practically decided upon, it was agreed to have a complete survey made, provided the money could be raised by subscription. Ralph May and Mr. Cromley of the Farm bureau, spoke in favor of the field survey and the members of the council present, also voiced their sentiments in favor of the field survey, and the members of the council present, also voiced their sentiments in favor of the complete survey as against the spot survey or checking system advocated.

The Citizens Telephone company has already filed its bond to increase its rates and these will go into effect September 1. The final hearing will be held by the commission October 1.

The increased cost to subscribers per year is the petition of the company if granted will be as follows: Circleville rural subscribers \$2,274 00 Williamsport rural subscribers 475 80 Ashville rural subscribers 1,315 00 Laurelville rural subscribers 550 80

Total Rurals \$4,615 60
Circleville city \$12,291 00
Ashville village 1,443 00
Williamsport 521 20
Laurelville 841 20

Total city and villages \$15,096 40
Grand total \$19,711 00

When subscribers are forced to pay their bill on increased rates a general protest will be heard and it was said at the meeting that subscribers should be ready to contribute to the fight, when called upon by the solicitors. If they can forestall the increase they may win out. Now is the time to act.

A meeting of the executive committee of the Farm bureau will be held this evening and a called meeting of the chamber of commerce next week. The city has been divided off into ten districts and as soon as possible solicitors will be placed in the field and if the necessary funds can be raised, a contract will be made with an accounting and engineering company and a complete survey of the Citizens Telephone company will be made.

Anthem Regulations
The leader of the Marine band says "The Star Spangled Banner" should never be played as a medley with other songs. At least two bars must elapse before playing "The Star Spangled Banner." There are no official regulations regarding the playing of such hymns except in the Army, Navy and Marine corps.

PROPERTY WRECKED BY EXPLOSIVES

MOST DASTARDLY OUTRAGE COMMITTED FRIDAY NIGHT

Twenty-Eighth Street Station of the Inter-Borough and the Manhattan Brooklyn Rapid Transit Stations Blown Up—Subway Service Was Paralyzed—Water Pipes Were Broken and Station Was Flooded—One Person Killed and a Number Were Wounded—Basement of Philadelphia Church Also Wrecked.

At least one person was killed and more than a dozen injured in a series of explosions in two of New York's main subway arteries Friday night.

Ten persons, nine men and one woman, who were injured in the explosion at 28th street and Fourth avenue, were taken to Bellevue hospital. One man was in a serious condition with a fracture of the skull. The head of a screw was imbedded in his skull, doctors said.

One of the men less seriously injured was beaten by a policeman when he resisted arrest after the officer caught him robbing a store, the windows of which had been blown out by the blast.

During the confusion a policeman shot and wounded a man believed to have been trying to rob passengers on an I. R. T. train.

The train had pulled into the station shortly after the explosion. A patrolman entered to quiet them. He saw the man snatch a woman's pocketbook and run. He called him to stop. When the man continued to run the patrolman shot him.

An unidentified man standing on the platform of the Brooklyn Manhattan Transit subway at Twenty-eighth street was blown to the tracks by the force of the blast.

Badly injured, he was picked up and taken to the New York hospital.

The B. M. T. Twenty-eighth street station was a mass of wreckage. The force of the blast, attributed to a bomb, broke the water pipes in the lavatory. The platform was flooded. The railings of the stairways were blown from their concrete bases. Turnstiles and change booths were shattered. The brick and cement littered the scene.

One man was severely injured in an explosion at the Twenty-eighth street station of the Fourth avenue line of the Interborough Rapid Transit Co. He was an employee of the subway company, but had not been identified when he was taken to Bellevue hospital.

As the cars entered the area of dense gas fumes, the trains slowed down and finally came to a stop while men and women, at first only uneasy, finally insisted on being carried on to an exit.

At least seven persons were injured at the Broadway and Twenty-eighth street station, according to firemen. The explosion was said by police to have been caused by a bomb planted in the lavatory on the south side of the station.

An unidentified man was taken from the wreckage unconscious and was taken to New York hospital in a serious condition.

The ticket agent's booth on the northbound side was ripped to pieces tile walls of the station were raked down and pillars and sections of the ceilings were twisted and wrecked.

Subway service was paralyzed and Broadway surface cars were halted while police reserves were called to assist in the rescue work and handle the thousands of persons who gathered at the scene.

The breaking of windows in the

district added to the confusion when they caused burglar alarms to be sounded thruout the area. This brought a rush of private detectives from protective agencies to the scene.

A terrific explosion late Friday night wrecked the basement of Emanuel Presbyterian church at Forty-second street and Girard avenue, Philadelphia, Pennsylvania, shattered all the windows in the edifice and threw the neighborhood into a turmoil of excitement.

Police expressed the belief that a bomb had been hurled thru a basement window of the church.

Police found a can of nitroglycerin with a long wire attached in the basement of the church. They expressed the belief that those who threw the bomb had been frightened away before they could set off the nitroglycerin.

A heavy guard of police were thrown about the church with orders to remain there thru the night.

A large hole was torn in the side wall of the church near the pavement and the explosion shook the buildings within a radius of several blocks.

Rev. Edward S. Bowman, pastor of the church, is also a chaplain of the Eastern State penitentiary there. Mrs. Bowman said her husband had no enemies and had never discussed radical activities from his pulpit. She also said there was no dissension in the church.

Marion—Funeral arrangements were being made today for Mrs. Gertrude Carr, 22, mother of three children who died Friday night of burns in city hospital. Mrs. Carr's clothes caught fire when a can of gasoline and coal oil she was mixing exploded. The three small children, unable to give aid stood by and watched the flames consume their mother.

Cincinnati—When Leslie Thompson, patrolman, found John Brown, Negro, he was wearing five coats and four pairs of pants, Thompson testified in court here. Brown did not answer Thompson's questions satisfactorily so he was arrested on a charge of loitering. All the clothing he wore was new.

Cincinnati—After killing his wife with a table knife yesterday in a rooming house in Indianapolis, Harry Henry, 32, formerly of Cincinnati stabbed himself to death. Henry was angered, Indianapolis police said, because Mrs. Henry had refused to return to Cincinnati on the way to Frankfort, Kentucky, with him or to leave behind an unpaid bill.

Columbus—No comment was forthcoming early today from Governor Donahey's office on the reported refusal of the Ohio Coal Operators association to be a party to reopening of the Miami conference at Toledo, August 15. At the governor's suggestion in an effort to settle the wage dispute now tying up Ohio coal fields.

Columbus—Sylvester Ballentine, 5 of 536 Edwards street, was struck Thursday by a truck driven by Fred Hopkins, 202 South Sandusky street at Washington avenue and Grove street. The boy was taken to Grant hospital by Hopkins.

Delaware—Herbert L. Eliot, 52, former member of the state industrial commission, died at his home Friday afternoon, following an illness of more than four years. He was active in Ohio politics.

Nature's Regulation

Although there are from twenty to sixty more male babies than female babies in every 1,000 babies born, there are more women than men in the civilized countries of the world, according to an answered question in Liberty. This is because more male babies die in infancy, and men are more liable than women to death by accident.

GUARDING PRESIDENT

The president of the United States at Rapid City, South Dakota, was surrounded by a guard as heavy as that which protected the chief executive during the war, following reports of radical violence protesting against the electrocution of Sacco and Vanzetti. When the report was received from New York that subways had been bombed, presumably by sympathizers of the condemned Anarchists squads of sentries were enlarged to completely surround the president's summer home. Vigilance of secret service men was increased.

BUS DRIVER IS

AWARDED CLAIM

Claude L. Summers, a bus driver for the Buckeye Stages company, was awarded a claim by the state industrial commission, Thursday for injuries which arose from wearing a pair of puttees which were too small for him.

The claim application shows that the company by which he was employed furnished him a uniform and puttees which he was required to wear at all times when on duty.

The puttees rubbed the heel which became infected and he was under medical treatment for some time. Summers drove one of the buses between Columbus and Mt. Vernon, and his medical bill was ordered paid from the state insurance fund.

MT. VERNON, O. SELECTED FOR NEXT REUNION

Of the Fourth Ohio Regiment,
Prominent Men Greeted
the Veterans.

The 29th annual reunion of the 4th Regiment Ohio Volunteer Infantry, Spanish-American war veterans which held their session in this city Friday at Zwicker's grove, was well attended 225 soldiers signed the roster. They were accompanied by their wives and children and the crowd was estimated at between four and five hundred people.

Mayor George M. Fitzpatrick made the address of welcome and responses were made by General John C. Speaks, of Columbus, member of congress from the Twelfth district, and Supreme Court Judge E. S. Matthias of Van Wert.

Company M., of this city, the members of which served in the Spanish-American war in 1898, has dwindled down to 32 survivors, fifteen of whom reside in this city.

The day for holding the reunion was ideal at the park as old "Sol" was just hot enough to make an outdoor gathering comfortable.

There is something different between the comradeship of a soldier, something indefinable, that goes to make the comradeship a little nearer, finer, more human, a little more neighborly and brotherly than that of any other organization. They shared their food, bed and all their heartaches with each other. Fighting side by side, sharing each other hardships thru the day and night in all kinds of weather brings the human souls nearer and closely knits the chains of friendship that last thru life.

The old friendships were renewed Friday at the festive board out on the ground under the canopy of blue, on fairer land than that on which they fought on 29 years ago.

Maybe the "chuck" was a little better, and surrounded by their wives and children made them happier, but their thoughts wandered back to the island in the Greater Antilles beyond the Caribbean Sea, when in the days under the hot sun they followed their commander; "Teddy" Roosevelt, up San Juan hill and won the battle that turned "Old Spain" out of the new and sent her back to the old world, shorn of all her great possessions this side of the pond. The Spanish-American war made history and freed a nation.

The entertainment committee served roast beef, coffee, cheese sandwiches and ice cream gratis. Hard-tack, canned beef and beans were off the list, but the boys did not miss this provender. It's only a memory now.

The next place for holding the reunion will be at Mt. Vernon.

The following officers were elected for the ensuing year: President, Fred Wiley, of Lancaster; vice president, Dr. B. R. Bales, Circleville; secretary treasurer, George Zwerner, Columbus; chaplain, C. E. Wolf, Marion.

POOR FISH.

The sheriff's department has disposed of a quantity of poor moonshine whisky. They poured about five gallons of the "joy" into the sewer this week.

MISS ROTH IMPROVING.

Miss Elizabeth, daughter of Mr. and Mrs. G. E. Roth, a counselor at Ogantz, White Mountain camp, Lisbon, New Hampshire, is slowly improving from a serious ear infection.

Patent Office Term

Ordinarily the term "basic patent" is employed in the sense of "foundation patent"—that is to say, a patent for a pioneer invention—one involving an altogether new principle, a new departure, one for accomplishing something never accomplished before.

Bavarians Are Tempting Dainties Dearly Loved By Small Children
Bavarians are among the most attractive desserts we have. They are simply delicate fruit gelatine, with whipped cream folded in, just as the mixture begins to set.
These charming, light desserts, however, have high food value on account of the cream and fruits which they contain, and are excellent carriers of vitamins and mineral salts. They are greatly relished in the hot weather by children, and by adults as well.
A fact that may not be known to all housewives is that evaporated milk will whip either alone or in combination with whipping cream. In either case, a light, fluffy whip is obtained, ideally adapted for use with bavarians.
"Heavenly Hash" is a variation of bavarians. It is made by folding in chopped fruit just as the mixture begins to harden.
They are excellent desserts to serve at the end of a hearty meal, and their presence on the table adds color and atmosphere.
Pineapple Bavarian
1 1/2 tbs. gelatin 1/2 cup lemon juice
1/4 cup cold water 1/2 tsp. salt
1/2 cup sugar 1/2 cup evaporated milk
2 cups drained, grated pineapple 1/2 cup whipping cream
Soak gelatin in cold water five minutes. Set over a pan of hot water to dissolve gelatin, add sugar, salt, pineapple and lemon juice. Set in a pan of cold water, stirring occasionally until mixture thickens. Fold in the whipped evaporated milk and cream. Chill. Yield: 5 servings.
Banana Bavarian
1 1/2 tbs. gelatin 1/2 tsp. salt
1/4 cup cold water 1/2 cup orange juice
1/2 cup sugar 1/2 cup evaporated milk
1 cup boiling water 1/2 cup whipping cream
1 tsp. butter 3 bananas
Soak gelatin in cold water for five minutes, add gelatin with the sugar and salt to the hot diluted milk, and stir until dissolved. Set dish in pan of ice water, add orange juice, butter and bananas mashed to a pulp, stir occasionally. In the meantime have combined the evaporated milk and cream. Chill and whip. Fold into the gelatin mixture just as it begins

Inventor of Steamboat
It is hard to say who invented the steamboat. Both James Rumsey and John Fitch invented steam-propelled boats in 1786. Rumsey demonstrated his steamship on the Potomac the same year that Fitch demonstrated his on the Delaware. Robert Fulton's more successful steamboat came later.

Flag Never Dipped
Raymond Poincare, war President of France, said a few years ago: "The Star Spangled Banner is the only flag in the wide world which does not dip before the head of a state, king or President." That's a little detail, but it is significant. The flag of the United States is dipped in courtesy to another nation, but never to an individual.—Gas Logic.

Chocolate Bavarian
1/4 cup boiling water 1 1/2 tbs. gelatin
1/4 cup sugar 1/4 cup cold water
1 cup heavy cream 1 1/2 squares chocolate
1 cup evaporated milk 1 tsp. vanilla
Soak the gelatin in cold water. Add the scalded evaporated milk. Stir until gelatin is dissolved. Melt the chocolate over hot water, add the sugar slowly and then the boiling water a little at a time. Add slowly to the gelatin mixture while both are hot. Cool. When the mixture begins to set fold in the cream and vanilla. Pour into molds. Yield: 5 servings.
Well Arranged For The Worker.
KITCHEN work, today, is robbed of much of its old-time drudgery by all sorts of mechanical devices and modern improvements. But perhaps the greatest aid is to be found in convenient arrangement.
In the first place, the modern housewife does not have to walk "miles" from stove to sink and from pantry to ice-box, as her grandmother had to do. Kitchens, today, are small, compact and well-equipped. One of the greatest step-savers is the placing of sink and drain-board between pantry and china-closet. This is an ideal arrangement for the worker, especially if there is a window directly above the sink. After drying the dishes, it is but a step in either direction to place them where they belong.
The two cupboards should be painted on the outside to match the woodwork, which is usually painted white or cream, in contrast with walls painted light yellow, pale green, a delicate blue, or a dainty shade of peach. Sometimes, however, the wood-trim is painted blue, green or light gray, as a frame for buff, yellow or orange colored walls. It is effective to repeat the wall color on the inside of the cupboards and their drawers, thus adding another cheery bit of brightness to the kitchen. Well-painted surfaces are sanitary and easy to clean.
Convenient built-ins are a well-established feature of nearly all California and Florida kitchens, since so many people live in bungalows in those places and the warm climate makes it advisable to minimize work in every possible way.

CRYSTAL MIST GASOLINE and OPALINE OILS

A guess in motor lubrication is always a hazard. The thing to do is to make sure. Why not drive around in your car - let us demonstrate how wear affects economical lubrication. Then let us recommend exactly the Sinclair Opaline Motor Oil you should be using to give your motor its proper lubrication

We carry five grades of Sinclair Opaline Motor oils. For your car--one of these five is better than the other four. It depends on the condition of your engine--the length of service--the degree of wear. The Sinclair Recommendation Index determines just the grade of Sinclair Opaline Motor Oil your car should have today.

OHIO EXPOSITION
Is Set For Brilliant Opening
August 6.
Cleveland, O., Aug. 5.—Doub-
ling its bid for national and in-
ternational attention as the cen-
ter of the world's richest indus-
trial area, Cleveland is bending
her efforts to land a plane from
Paris to Cleveland in the first
non-stop westward crossing of
the Atlantic, between the dates
of the gigantic five-city block in-
dustrial exposition planned for
23 days, Aug. 6 to 28.
The prize is \$30,000, guaran-
teed by the Cleveland Chamber
of Commerce. Arrangements now
are being taken up officially with
the international Aeronautique
Federation in Paris.
One of Cleveland's strongest
bids for industrial expansion is in
the field of aviation. This ac-
tivity is a part of a general three-
year program of the Industrial
Development Committee of the
Chamber of Commerce. The
Paris-Cleveland hop is proposed,
therefore, for the double purpose
of advancing Cleveland as an
aviation center and of focusing
world attention on the Industrial
Exposition.

The stage is virtually set for
the opening of the big exposition
at noon Saturday, Aug. 6. Ex-
ecutive staffs of the exposition
company have been moved to
their operating headquarters in
Cleveland's mammoth public
hall! exhibits are being placed in
the halls and in the central plaza;
the radiant Tower of Jewels is
ablaze and its loud-speaker in
full cry; in short, the spectacle is
ready for the hundreds of thou-
sands of visitors the advance
ticket sale contest has assured.
Aeronautics will have a large
part in the varied and attractive
exhibits the exposition will offer.
On the plaza will be numerous
models of mail, passenger,
freight-carrying and war planes
of various types. A feature of
the aero-section will be a com-
plete working model of Cleve-
land's air field, the finest in the
United States.
But these are only a few of the
countless exhibits and entertain-
ments at the exposition which are
certain to attract the eyes of vi-
sitors and to hold their attention
every minute they are on the
great exposition grounds.

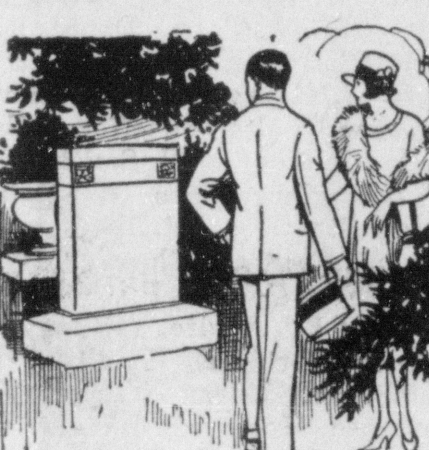

"JANUARY THAW"
PROVES REALTY
Many of the popular traditions
about the weather have been
shown to be fallacies by the
scientific investigation of the
records, but it seems that there
is some substantiation for the
popular belief about the regular-
ity of the "January thaw," which
is a belief that is prevalent
throughout the Eastern part of
the country. According to an
article of Roscoe Nunn of the
Weather Bureau:
"The immediate cause of each
occurrence of the spell is readily
seen from an examination of the
weather maps. It is almost need-
less to say that they are caused
by low-pressure areas moving
eastward or northeastward, tra-
versing the Lake region and the
St. Lawrence valley, or the Ohio
valley or the Atlantic States and
inducing southerly winds in the
Eastern States.
"A file of weather maps for
the years 1901 to 1927 was ex-
amined to discover the types of
maps that produced the mild
spells. In the 19 cases investi-
gated it was found that lows mov-
ing eastward over the Great
Lakes and the St. Lawrence val-
ley produced 10 of the spells,
lows coming from the far south-
west and passing northeastward
over the Ohio valley or the At-
lantic States caused four; simul-
taneous movement of Alberta
and southwestern lows caused
three, and lows that formed, or
developed, over the Middle West
or the Ohio valley and moved
northeastward caused the re-
maining two."

The Agreeable Man
The true art of being agreeable is
to appear well pleased with all the
company, and rather to seem well en-
tertained with them than to bring en-
tertainment to them.—Joseph Ad-
dison.
Uncle Eben
"Dis world is gittin' so grouchy,"
said Uncle Eben, "dat de only sure
way of gittin' good news is to save
up yoh money an' hand it to a for-
tune teller."—Washington Star.

Royalty in "Trade"
Traveling about Germany with
models for a Parisian fashion house is
the fate of Countess Olga Loris-Meli-
kov, granddaughter of Czar Alexander
II of Russia, and also of the Russian
poet, Alexander Pushkin. Had the for-
tunes of war been different she might
today be crown princess of the king-
dom of Flanders, the creation of
which was planned by the Germans in
1918. Countess Melikov, nee Meren-
berg, goes to Germany from time to
time to show the models of a house
owned and run by Russian emigre
aristocrats living in Paris. She makes
regular stops in Berlin, Frankfurt and
Wiesbaden, besides paying occasional
visits to other centers, and everywhere
manages to dispose of orders running
into high figures.
Real Test
"It makes me laugh to hear some
men say they haven't any temper,"
says old Al Pitcher. "No man knows
if he's got a temper till he meets up
with a determined agent for some-
thing no household is complete with-
out."—Farm and Fireside.

ANCIENT BURIAL
CUSTOMS CITED
Excavations Near Wisconsin
River Reveal Them.
Sheboygan, Wis.—Excavation of In-
dian mounds near Black river is un-
der way at present, with archeologists
from the Milwaukee museum and the
Wisconsin Archeological society in
charge of the work.
Study of the bones already un-
earthed shows that the Indians buried
there are either of a tribe which did
not use the "cradle board," or are of
Indians who lived there before the
method of carrying babies strapped to
a board which was carried on the
mother's back, came into general
usage.
This last theory is most favored by
the archeologists, for there are very
few dishes and ornaments buried with
the bodies, leading to the belief that
the burials took place before the cus-

tom of placing such articles in the
graves became common.
One of the mounds already exca-
vated has revealed the skeleton of a
body buried in the flesh, while an-
other is that of a "pack" burial, where
bones of others, previously dead, have
been disinterred, bundled together, and
buried with the body of another per-
son.
The latter, it is thought, may have
resulted when all but the head of a
family died first, were buried and dug
up again to be re-buried with the last
of the group.
The mounds excavated so far are of
the effigy type, being built in the shape
of animals.
Flower of Highest Value
The rose has a greater commercial
value than any other flower, points out
Liberty. Besides its high horticultural
value, it produces attar of roses, an
expensive perfume. Forty thousand
flowers are required to produce one
ounce.

Distance's Lure

I have heard it said of a great painting, "Don't go too close to it." In order to get the best out of a picture, view it in the proper light, and from a distance. If you get too close a look, you will realize the rough way in which it is made. . . . I prefer (now) to also view women from a distance: never closer than four or five feet.—E. W. Howe's Monthly.

The Four Things That Matter.

There are four qualities we look for in a motor oil:

1. It must give perfect lubrication.
2. It must leave the engine in clean condition.
3. It must be economical to use.
4. It must be free from impurities that damage the engine.

On these four counts we have chosen Sinclair Opaline Motor Oils and we recommend them to our customers.

EDITORIAL FATALITY

While ye editor was gone on a fishing trip last week our esteemed assistant, the dumbest of God's creatures, gummed up the report of the parade as per usual.

The ladies of Jintown played a baseball game while we were away. Nine married women were matched against nine single girls, and the single girls won the game, due largely to errors made by the married women.

That bright assistant of ours wrote up the game and printed his story under headline "Erring Wives."

COAL PRICE REDUCED TO NOTHING FLAT

Club is Now Being Formed at the Stevenson Furniture Store on West Main.

That is will be possible, for a few short weeks, between July 30 and August 20, to secure, without cost a ton of high grade coal, was the announcement made today by Mr. H. G. Stevenson.

The plan, by which thousands of people in all parts of the nation will receive a free ton of coal is appropriately known as The Free Coal club plan. Purchasers of an Estate Heatrola between the above mentioned dates are eligible to receive the free coal. The plan works, briefly, as follows: A \$2 enrollment fee, which is applied to the purchase price of Estate Heatrola, and dues of \$2 a week, also applied to the purchase price, are paid. This continues until fall, when the free coal and the Heatrola are delivered, and the balance of the cost is due. The price of the Heatrola to Free Coal club members and to those who purchase their Heatrolas before or after the drive, is the same, so that the coal, is, in fact, absolutely free.

The Free Coal club is a national organization, founded in 1922 by The Estate Stove company, of Hamilton, Ohio, makers of the famous Estate Heatrola which has revolutionized small home heating practice since it was invented and first offered to the public in 1921. Every year, thousands of people everywhere have purchased Heatrolas and received a free ton of coal during the period of the drive for members. This year, more thousands will join, including, if interest in the plan is an accurate guide, many local residents.

The Estate Heatrola is well known in Circleville. It has banished the old-fashioned, unhealthy stove heating method in many homes and provided healthful Heatrola furnace comfort. In so doing, Estate Heatrola has met a long felt need. Tired of stove heat with its dry, blistering heat, home makers welcomed the Heatrola because it made possible the circulation of warm, moist air thru every room of the house, upstairs and down. Physicians are unanimous in their contention that the proper circulation and humidification of air in the home is of paramount importance to the health of the occupants.

Built on the principle of a warm air furnace—to circulate heat thru every room, and to provide the proper humidity for most healthful conditions, Heatrola has met with a wide acceptance. Satisfied Heatrola users in all parts of the nation now number many thousands.

Then, too, the Heatrola has wrought remarkable changes in the very appearance of the homes which it is serving. It is built to resemble closely, a handsome mahogany phonograph. Its vitreous enamel, fused to the metal under a temperature of 1500 degrees Fahrenheit, is not only as beautiful as the natural wood, but smooth as glass—and everlasting.

The Intensi-Fire Air Duct and the Hot Blast attachment, exclusive features of the Heatrola, have made this wonderful appliance so efficient that Heatrola users report a saving in fuel, on an average of 45 per cent. The Intensi-Fire Air duct, built into the Heatrola at the hottest point, heats the air intensely and sends it rushing into the house, while the Hot Blast attachment draws air into the fuel bed, burns the volatile gases, cokes the coal and reduces it to a fine ash. The Heatrola burns no more fuel than a single old-fashioned heating stove, yet it heats the entire home.

The Stevenson store is the exclusive local distributor of the Heatrola and the only local organization eligible to enroll members in the Free Coal club. Mr. Stevenson has announced that he will be pleased to give any further information desired to interested parties. A telephone or personal call at the store, West Main street, will obtain the desired information. Mr. Stevenson urges those who are interested to communicate with him as soon as possible, since the Free Coal offer positively closes on August 20.

AMUSEMENTS

World war aces who think they know the last word in hazardous flying, may be able to learn some new aerial tricks with the showing of "Rookies" Metro-Galdwyn- Mayer's nest farce comedy coming to the Met theater Monday.

The story, an original by Byron Morgan, is laid against a background of citizens' military training camp life and is directed by Sam Wood, who made a name for himself by directing many of the most successful Wallace Reid productions.

Wood, who is an authority on film thrills, is said to have injected airplane and balloon stunts which are almost blood congealing to the spectators.

During the filming of the air sequences the director called upon the fliers to "do their darndest," and was rewarded by a series of thrills that almost stopped the battery of cameras and forced the cameramen to take refuge in flight.

Planes swooped from the sky directly at the camera lenses, banking when less than forty feet away, while traveling at almost eighty miles an hour. That they did not mow down the cameras is all the more remarkable when the fact is considered that the planes had a wing spread of more than thirty feet.

The plane shots were filmed at altitudes varying from twenty-five feet to more than a mile and the balloon thrills were taken at heights which sometimes carried cameras, director and cast far above the clouds.

The picture was produced with the cooperation of the government and many officers detailed to the training camps appeared in the production and acted as technical advisors. The story features Karl Dane, Marceline Day, George K. Arthur and Tom O'Brien. The supporting cast includes Frank Currier, Lincoln Steadman, Gene Stone, E. H. Calvert and the well known film actress, Louise Lorraine.

Or are your children wearing our Poll-Parrot shoes, the kind that keep their shape and give such excellent service because they're made up to that high standard of solid leather value? That's the kind of materials the makers of "Star Brands" put in their shoes.

"Good Shoes For Less"

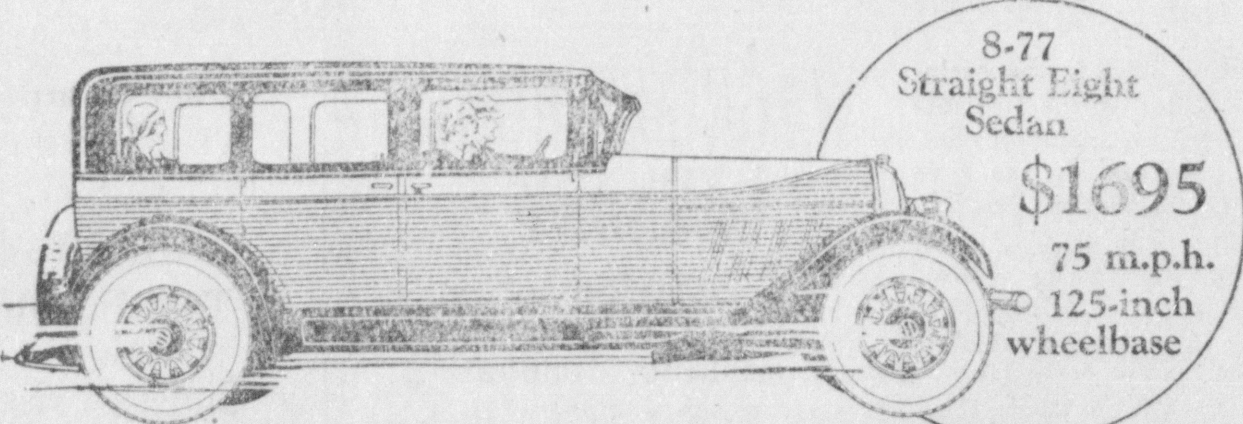

Why Mince Words?

This is the open season when automobile manufacturers go gunning for buyers. Read the extravagant claims .. the boasts .. the adjectives and superlatives. You are entitled to the facts. Every high priced, largest-type car has lost sales this year. Although several of the smaller, low-priced cars show gains, the industry as a whole shows a loss as this is written. Yet in contrast Auburn in the first 5½ months of this year built as many cars as all of last year. And in 1926 Auburn doubled its production over 1925. New type merchandise, of greater

value for less money did it. Cars that perform better, ride and drive easier and endure longer did it. The Straight Eight type of car is the undisputed leader today. No Straight Eight is more successful than Auburn. Facts prove it, in the hands of owners as well as in official contests conducted by the American Automobile Association. The reasons for Auburn's extraordinary success are all built into the car itself. We claim it is the greatest value on the market..... bar none..... and will let the car itself prove it with you at the wheel.

Charming Coat of Brown Plaid of Light Weight Fabric.

their favor with coats which rely upon their own fabric and lines for distinction.

Mary Astor, the motion picture actress, in selecting a chic coat for outdoors, has chosen a brown plaid of light weight fabric fashioned along very simple lines and trimmed with red fox fur. Miss Astor wears many attractive costumes in the film, "The Sunset Derby."

Lace Used on Garments; Liked on Summer Hats

Lace and lots of it. This is the dictum from the fashion centers and it applies to garments from toe to topknot. Lace has even come in again for hats. The large, soft, fine straw hats of the wide-brimmed type now have the brims underlined with ecru lace which extends to the edge and about half an inch beyond it. Occasionally such hats are trimmed with a single strand of osprey plumes, posed flat around the crown.

Aviation Hats Popular With Young Parisiennes

The young Parisiennes are wearing the little felt helmets still more since the transatlantic feat. These are most attractive in all the prettiest pastel shades and intricately cut. Some have wings on either side, others are the regulation aviation cut—one might have one ear-tab—another an ear-tab on either side, and so many bear the stamp of patriotism in the form of an airplane ornament, which is smartest in marcasite.

Dark-Colored Hose are Worn by London Women

British women, tiring of mud bespattered flesh-colored hosiery, have once again chosen to wear darker silk stockings, even including black, writes a London correspondent. Fashionable shops are showing dark grays and browns as well as black. Many of the best-dressed London actresses are inclining more and more to black and other dark gowns favored by Paris dressmakers, and these require darker footwear.

Aged Pine Cone

The department of paleontology at the University of California has received a pine cone in perfect condition that is probably two million years old, although it is of a species still existing. The tree which bore the cone was buried in a lava flow and thus preserved. A prospector in Placer county found the cone and sent it to the university.

How We Choose the Right Oil.

Perfect lubrication in your car! What is it? Just a matter of selecting the one of the five grades of Sinclair Opaline Motor Oils that is proper for your car's present condition. One of them is perfect for your car—it fits the degree of wear of the engine.

Groundhog Superstition

According to superstition, the groundhog, or woodchuck, leaves his winter home on Candlemas day and if he can see his shadow, he returns to his hole and sleeps some more because he knows that winter is still unbroken. But if it is cloudy, and he cannot see his shadow, he knows that the worst of winter is over.

Just when the groundhog idea started is not known, but the superstition that the weather on Candlemas day is an indication of the weather for the rest of the winter is too ancient a superstition to be discarded. It has prevailed in Europe for centuries. The Germans have a saying that "The shepherd would rather see a wolf in his stable on Candlemas day than the sun."

The "Right" Oil May Be Wrong

The oil you always use may not be the right oil for your car today. And the right oil for today may not be correct a year from today. As your car grows older—your engine clearances increase. And you must change to heavier bodied oil.

We prescribe Sinclair Opaline Motor Oils in different grades to meet the changing condition of your engine. Consult the Sinclair Recommendation Index—see you are using the best lubricant for your car as it is today.

NOTED PASTOR WILL PREACH AT LANCASTER

Dr. C. A. Tinley of Philadelphia, will deliver three sermons at the Lancaster camp grounds at 10:30, 2:30 and 7:30 tomorrow. This great minister has the distinction of having the only church in the world, where on the account of crowds, his own members are admitted to the service by tickets only and then to only one sermon on any Sunday.

Everyone will want to hear at least one of the sermons.

The music will be furnished by a vested choir of 35 voices from the Glenwood M. E. church, Columbus.

Many cities signify their intention of hearing this program.

SCHOOL WILL BE NEXT WEEK AT LANCASTER

Fine Programs at the Camp Ground Have Been Arranged by Missions.

The School of Foreign Missions, of the Ohio conference, Methodist Episcopal church, will be held at Lancaster camp grounds next week, starting Tuesday, August 10.

The various districts will have charge of the afternoon programs, Lancaster district conducting the Wednesday program and a large delegation is expected from this city and other surrounding towns on that day. The district having the largest number of members present on the day they have charge of the program is counted the banner one.

Saturday, August 13 is Anniversary day and Dr. Oscar M. Buck, of New York City, who was associated with E. Stanley Jones in India will give an address. Miss Clementina Butler, daughter of Dr. and Mrs. William Butler, who were the first missionaries sent to India by the M. E. church, will speak on "Mexico." She will also speak at other sessions during the week.

Missionaries who will assist with the program will include Helen Albecht, Japan; Fern Sinkey, Ursula Tyler and Thirza Stahl, China; Elizabeth Hoge, India and Frances Blackburn, South American. Mrs. R. L. Thomas of Cincinnati, will speak Wednesday at 4:30 p. m., on "The New Day."

FINISH FIGHT AGAINST RAISE OF PHONE RATES

To be Made Against Citizen's Telephone by Subscribers of This County.

The public meeting called by the city council, the Farm bureau and the chamber of commerce to arrange to hire an expert to go over the books of the Citizens Telephone company to see if this corporation is entitled to extra rates for telephone service, was fairly attended Friday evening and representatives of the three bodies attended the call. Frank A. Marion a member of the council presided as chairman.

Among those present were Beecher W. Waltermire of Columbus. He was a former member of the Utilities commission. He explained how public utility corporations secure their increases. His explanation was interesting and he added that the commission is fair to both sides in a rate controversy, but facts must be given them and no subterfuge used. When you go before the commission you had better be prepared or your case is lost at the onset. It's like appearing before a court, you must have everything ready to attack.

Mr. Beman Thomas, of the engineering firm of Beman Thomas and company, of Columbus, a firm which makes appraisals of utility companies told that it would take 45 days to make a complete survey of the telephone property. He explained the difference between a complete survey and a spot examination. The latter is cheaper, but not as thoro. The former would cost approximately \$3,000 and the latter \$2,500.

A spot examination is merely a checking of the company's inventory filed with the commission, while the latter is their own estimate based on a survey made by the company's expert engineers. He said his company is ready to do either but he would recommend a complete survey, as it was more valuable in the end.

After a discussion headed by Frank A. Lynch, president of the chamber of commerce and practically decided upon, it was agreed to have a complete survey made, provided the money could be raised by subscription. Ralph May and Mr. Cromley of the Farm bureau, spoke in favor of the field survey and the members of the council present, also voiced their sentiments in favor of the field survey, and the members of the council present, also voiced their sentiments in favor of the complete survey as against the spot survey or checking system advocated.

The Citizens Telephone company has already filed its bond to increase its rates and these will go into effect September 1. The final hearing will be held by the commission October 1.

The increased cost to subscribers per year is the petition of the company if granted will be as follows:

Circleville rural subscribers \$2,274 00
Williamsport rural subscribers 475 80
Ashville rural subscribers 1,315 00
Laurelville rural subscribers 550 80

Total Rurals \$4,615 60
Circleville city \$12,291 00
Ashville village 1,443 00
Williamsport 521 20
Laurelville 841 20

Total city and villages \$15,096 40
Grand total \$19,711 00

When subscribers are forced to pay their bill on increased rates a general protest will be heard and it was said at the meeting that subscribers should be ready to contribute to the fight, when called upon by the solicitors. If they can forestall the increase they may win out. Now is the time to act.

A meeting of the executive committee of the Farm bureau will be held this evening and a called meeting of the chamber of commerce next week. The city has been divided off into ten districts and as soon as possible solicitors will be placed in the field and if the necessary funds can be raised, a contract will be made with an accounting and engineering company and a complete survey of the Citizens Telephone company will be made.

NOTED PASTOR WILL PREACH AT LANCASTER

Dr. C. A. Tinley of Philadelphia, will deliver three sermons at the Lancaster camp grounds at 10:30, 2:30 and 7:30 tomorrow. This great minister has the distinction of having the only church in the world, where on the account of crowds, his own members are admitted to the service by tickets only and then to only one sermon on any Sunday.

Everyone will want to hear at least one of the sermons.

The music will be furnished by a vested choir of 35 voices from the Glenwood M. E. church, Columbus.

Many cities signify their intention of hearing this program.

SCHOOL WILL BE NEXT WEEK AT LANCASTER

Fine Programs at the Camp Ground Have Been Arranged by Missions.

The School of Foreign Missions, of the Ohio conference, Methodist Episcopal church, will be held at Lancaster camp grounds next week, starting Tuesday, August 10.

The various districts will have charge of the afternoon programs, Lancaster district conducting the Wednesday program and a large delegation is expected from this city and other surrounding towns on that day.

The district having the largest number of members present on the day they have charge of the program is counted the banner one.

Saturday, August 13 is Anniversary day and Dr. Oscar M. Buck, of New York City, who was associated with E. Stanley Jones in India will give an address. Miss Clementina Butler, daughter of Dr. and Mrs. William Butler, who were the first missionaries sent to India by the M. E. church, will speak on "Mexico." She will also speak at other sessions during the week.

Missionaries who will assist with the program will include Helen Albecht, Japan; Fern Sinky, Ursula Tyler and Thirza Stahl, China; Elizabeth Hoge, India and Frances Blackburn, South American. Mrs. R. L. Thomas of Cincinnati, will speak Wednesday at 4:30 p. m., on "The New Day."

FINISH FIGHT AGAINST RAISE OF PHONE RATES

To be Made Against Citizen's Telephone by Subscribers of This County.

The public meeting called by the city council, the Farm bureau and the chamber of commerce to arrange to hire an expert to go over the books of the Citizens Telephone company to see if this corporation is entitled to extra rates for telephone service, was fairly attended Friday evening and representatives of the three bodies attended the call. Frank A. Marion a member of the council presided as chairman.

Among those present were Beecher W. Waltermire of Columbus. He was a former member of the Utilities commission. He explained how public utility corporations secure their increases. His explanation was interesting and he added that the commission is fair to both sides in a rate controversy, but facts must be given them and no subterfuge used. When you go before the commission you had better be prepared or your case is lost at the onset. It's like appearing before a court, you must have everything ready to attack.

Mr. Beman Thomas, of the engineering firm of Beman Thomas and company, of Columbus, a firm which makes appraisals of utility companies told that it would take 45 days to make a complete survey of the telephone property. He explained the difference between a complete survey and a spot examination. The latter is cheaper, but not as thorough. The former would cost approximately \$3,000 and the latter \$2,500.

A spot examination is merely a checking of the company's inventory filed with the commission, while the latter is their own estimate based on a survey made by the company's expert engineers. He said his company is ready to do either but he would recommend a complete survey, as it was more valuable in the end.

After a discussion headed by Frank A. Lynch, president of the chamber of commerce and practically decided upon, it was agreed to have a complete survey made, provided the money could be raised by subscription. Ralph May and Mr. Cromley of the Farm bureau, spoke in favor of the field survey and the members of the council present, also voiced their sentiments in favor of the field survey, and the members of the council present, also voiced their sentiments in favor of the complete survey as against the spot survey or checking system advocated.

The Citizens Telephone company has already filed its bond to increase its rates and these will go into effect September 1. The final hearing will be held by the commission October 1.

The increased cost to subscribers per year is the petition of the company if granted will be as follows: Circleville rural subscribers \$2,274 00 Williamsport rural subscribers 475 80 Ashville rural subscribers 1,315 00 Laurelville rural subscribers 550 80

Total Rurals \$4,615 60
Circleville city \$12,291 00
Ashville village 1,443 00
Williamsport 521 20
Laurelville 841 20

Total city and villages \$15,096 40
Grand total \$19,711 00

When subscribers are forced to pay their bill on increased rates a general protest will be heard and it was said at the meeting that subscribers should be ready to contribute to the fight, when called upon by the solicitors. If they can forestall the increase they may win out. Now is the time to act.

A meeting of the executive committee of the Farm bureau will be held this evening and a called meeting of the chamber of commerce next week. The city has been divided off into ten districts and as soon as possible solicitors will be placed in the field and if the necessary funds can be raised, a contract will be made with an accounting and engineering company and a complete survey of the Citizens Telephone company will be made.

Anthem Regulations

The leader of the Marine band says "The Star Spangled Banner" should never be played as a medley with other songs. At least two bars must elapse before playing "The Star Spangled Banner." There are no official regulations regarding the playing of such hymns except in the Army, Navy and Marine corps.
